SAFE W

Weather-proof housing made of aluminum die-casting with a pane of safety glass. Model for wall mounting with four high-performance LEDs and cast acrylic optics for wide area illumination or escape route illumination.

Cable inlet into the luminaire possible from the back and from below. Product includes an IP65 membrane pressure compensation valve.

Optionally, the luminaire can be delivered as a central battery version for a temperature range down to -35°C (unmonitored).

The self contained version is also available as a set with an external supply unit for indoor installation and lighting unit for outdoor mounting (suitable for a temperature range to -35°C).

Alternatively, the luminaire is available with a heating case incl. battery (4,8V 4,2Ah) to extend the temperature range in the luminaire to -20°C.
